

Paint the Future China startup challenge

September 29, 2021

Full list of finalist submissions to the Paint the Future China startup challenge:

	Startup	Challenge	Submission description
1	Data Fountain Pty Ltd	Digital customer experience	Intelligent climbing robots using lidar technology and algorithms for smart wall work path
2	Sanmu Dimensions	Digital customer experience	Spraying simulation training system based on VR technology
3	Chinajey	Digital customer experience	Using memory computing, artificial intelligence and big data for data visualization and synergy (SAP S/4HANA)
4	Archfiction	Digital customer experience	An immersive, interactive mixed reality technology combining AI and gear-free Mix Reality (MR) into a complete product solution
5	Xlzhao	Towards zero waste	Composite phase change materials to increase energy use efficiency
6	TedaRobotics	Towards zero waste	Comprehensive robotic supply system for various painting materials
7	Nexin	Towards zero waste	Microwave pyrolysis technology to recycle paint waste
8	Fiber Armor	Towards zero waste	Structural fiber technology for stronger and easy-to-renovate surfaces
9	Cortp	Towards zero waste	Recyclable logistics packaging sharing and rental services
10	Ginet	Towards zero waste	Inorganic non-metal powder materials recycled from glass waste for use in coating materials
11	ECO Environmental	Towards zero waste	Recycle and purify useful organic diluent and metal-oxide from waste coating, ink and paint
12	Fuxin New Materials	Towards zero waste	Thin-film coating technology to reduce paint residue
13	Actelligen	Smart supply chain	Industrial computer vision for 3D defect detection
14	Mech-Mind	Smart supply chain	AI and industrial robotic arms provider
15	G7	Smart supply chain	Enabling transport safety and in-transit monitoring based on Internet of Things solutions
16	Bailian AI	Smart supply chain	Intelligent processing of all kinds of business documents based on machine learning, optical character recognition and robotic process automation
17	Black Lake	Smart supply chain	Manufacturing collaboration SaaS system to provide intelligent work order and digital screen
